

FAMILY AND EARLY CHILDHOOD
ANGLOPHONE EAST INC.

FACE 2 FACE

(0-12 MONTHS; PARENT & CHILD PROGRAM)

Developed by our own educators, **face 2 face** is a dynamic and interactive program aimed at promoting healthy and life-lasting relationships between parent and child. It is broken into three series: infant series, baby series, and older baby series.

INFANT SERIES (0-12 MONTHS):

- **Infant Chat**
Focuses on infant cues—what they mean and what your infant is telling you before they can even speak.
- **Tears n' Cuddles**
Helps parents gain a better understanding of why infants cry, what they are telling you, and how a parent shows their infant they can depend on them.
- **Brain Play**
Helping parents learn about what an infant's brain needs to make important connections that will foster healthy brain growth and relationships.
